

Smoke-Free Parks

77 out of 100 park users surveyed said they would support smoke-free parks in Willows.

Why Smoke-Free?

- **Health** Ensure children and others are protected from secondhand smoke.
- **Safety** Provide safe areas for everyone to play.
- **Litter** Cigarette butts never completely break down and contain toxins that can poison children and pets if ingested.
- **Fires** Discarded cigarette butts can start wildfires.
- **Community** Not smoking demonstrates positive role modeling and shows youth that smoking is not okay.
