Marcie Skelton  
Agricultural Commissioner  
Sealer of Weights & Measures

#1  
Revised 10/7/2015

**Glenn County Department of Agriculture  
Farm Labor Contractor Registration Information  
Registration Fee: \$25.00**

1. Every Farm Labor Contractor licensed in the State of California to perform various functions and duties is required to:
  - a. Register with the Agricultural Commissioner of the county or counties in which the labor contractor has contracted with a grower;
  - b. Carry his or her licensed and proof of registration with him or her at all times;
  - c. File with the Agricultural Commissioner of the county or counties in which the Labor Contractor has contracted with a grower, a corrected change of address immediately upon each occasion the licensee permanently moves his or her address.
2. A civil penalty of not more than \$1,000 for each violation may be levied against a person for violating Section 1695 of the Labor Code, which pertains to registration with the Agricultural Commissioner; or Division 7, Chapter 2, Article 10.5 of the California Food and Agricultural Code pertaining to pesticide and worker safety.
3. The State of California requires the safety of employees that may enter a field when exposure to a pesticide or its residue can be reasonably expected. Field workers must receive training before working in a treated field and at least once every five years thereafter. The information must be presented orally or audio visually in a manner the field worker can understand.
4. Field workers shall be trained by one of the following: Certified Private Applicator, Certified Commercial Applicator, County Agricultural Inspector, U.C. Extension Farm Advisor, Licensed Pest Control Advisor, persons who complete a DPR approved instructor training program. An employee, who is a certified applicator or has a current, documented pesticide handler training, is considered already trained.
5. Farm Labor Contractors and their supervisors shall be informed of the meaning of warning signs placed at the corners and entrances of fields treated with a pesticide. The warning sign means that the field has been treated with a pesticide and that no one is to enter the field without proper safety equipment.
6. Farm Labor Contractors and their supervisors shall be informed of activities prohibited during the reentry interval. (See Field Worker Safety Handout).

7. Employers must provide soap, single use towels, and enough clean water for eyewash and washing hands and face, all located not more than ¼ mile (or the nearest vehicle access point) from Field workers working in a treated field. Separate toilet facilities for each sex shall be provided for each twenty (20) employees or fraction thereof. One hand washing facility shall be provided for each 20 employees or fraction thereof. Where there are less than five employees, separate room for each sex are not required provided toilet rooms can be locked from the inside and contain at least on water closet. Urinals may be installed instead of water closets in toilet rooms to be used only by men provided that the number of water closets shall not be less than two-thirds the minimum number of toilet facilities. Exception: An employer may provide transportation to toilet and hand washing facilities, as an alternative means of compliance if: 1) The employees perform field work for a period of less than two hours, (including transportation time to and from the field; 2) fewer than 5 employees in any agricultural establishment are engaged in hand labor operations on any given day; or 3) employees are not engaged in hand labor operations.
8. Employees or their supervisors shall be informed of where to go to receive emergency medical treatment;
  - a. They shall be informed of the NAME, ADDRESS, and TELEPHONE NUMBER, of a doctor, hospital or emergency room where employees can receive emergency treatment.
  - b. If it is not convenient to go to the designated location, procedures to take employees elsewhere are required.
9. When it is suspected that an employee is ill due to a pesticide or when exposure to a pesticide has occurred that could result in illness of the employee the employee must be taken to a doctor immediately? An employee that is ill must not be allowed to drive himself or herself to the doctor. Employees or their supervisors shall be informed how to give first aid for pesticide illnesses or exposure.
10. Farm Labor Contractors and their supervisors shall be informed of the symptoms of pesticide poisoning such as: headache, vomiting, blurred vision, pinpoint pupils, excessive sweating, chest tightness, frothing of the mouth or nose, diarrhea, muscle paralysis, nausea, cramps, nervousness, labored breathing, weakness, watery eyes, dizziness, coma.
11. Farm Labor Contractors engaged in the application of pesticides, including baits, must be licensed as an Agricultural Pest Control Business and register with the Agricultural Commissioner.
12. The written Hazard Communication Information for Employees Working in Treated Fields (A-9) must be posted at the worksite.
13. Fieldworkers have the right to access pesticide use reports, labels of pesticides, Safety Data Sheets and Pesticide Safety Information Series (PSIS).

I have received and reviewed the above items prior to registering with Glenn County.
