Community Members,
Please talk with your loved ones about the harmful effects of fentanyl. Many other drugs are being laced with fentanyl without the consumers knowledge. You don't know it's laced, until it's too late.

This is a lethal dose of Fentanyl.

HOTLINES AND RESOURCES

If you or a loved one is facing addiction, please call:

Substance Use Disorders Services (SUDS) crisis line
(530) 865-1146

WE ARE FACING A FENTANYL CRISIS

GLENN COUNTY OFFICE of EDUCATION

California Department of Public Health. (2022, November 3). *Fentanyl*. Fentanyl (ca.gov)

Centers for Disease Control and Prevention. *The Facts About Fentanyl*. (2022, November 3) THE FACTS ABOUT FENTANYL (cdc.gov)

WHAT IS FENTANYL?

Fentanyl is a synthetic opioid that is up to 50 times stronger than heroin and 100 times stronger than morphine.

The number of overdose deaths involving synthetic opioids in 2020 was more than 18 times the number in 2013.

More than 56,000 people died from overdoses involving synthetic opioids in 2020.

Ways to stay safe:

- Always carry Narcan
- Utilize fentanyl test strips
- Always call 911 after administering Narcan

SIGNS OF FENTANYL POISONING

- small, constricted pupils
- falling asleep/loss of consciousness
- Weak/slow or no breathing
- choking/gurgling sounds
- limp body
- cold and/or clammy skin
- discolored skin

Remember to call 911 after you administer Narcan. The Good Samaritan Law offers protection to those who seek emergency services at the scene of a suspected drug overdose.

NALOXONE DISTRIBUTION SITES

NARCAN® is a potentially lifesaving medication designed to help reverse the effects of an opioid overdose temporarily.

Visit www.narcan.com for facts and instructions on how to use Naloxone

Scan the QR code for a list of resources and locations.

Fentanyl testing strips are also available.
