

## WHAT IS CODERED?

CodeRED is an alert and notification system that enables local public safety personnel to notify residents and businesses by telephone, text message, email, and social media with critical information during emergencies.

The system can reach thousands of individuals in minutes to ensure information such as evacuation notices, missing persons, inclement weather advisories, and more are quickly shared.

Only authorized officials at Glenn County Sheriff's Office have access to send alerts using the Glenn CodeRED system.

CodeRED is a targeted alerting system, meaning that the alerts are sent to a specific impact area. Only those with a registered address in the selected alerting area will receive the alert via voice, text or email. Cell phones who have enabled the CodeRED mobile app will be alerted if location settings are enabled and the location of your device is in the alerting zone.

# NIXLE

## A service to keep you informed

Do you want to know more? Sign up for Nixle.

Nixle is a text and email only alert system used to send community level alerts. Alerts are sent to all who have opted in to the system, county-wide.

Nixle is a secondary alert system in Glenn County, used as a backup for our emergency alerts during critical events.

## COMMUNITY ALERTS

Community level alerts may include significant traffic accidents that result in road closures, fire notifications, power outage notifications, and other time sensitive community notices.

# KNOW YOUR ZONE

## Glenn County Evacuation Zones

Glenn County has 165 pre-defined evacuation zones that are organized in to 20 community areas.

Each zone begins with a 3 letter community designation followed by the zone number. Example Orland Zone 1 is ORL-1.

Each zone includes a description of the borders which are roadways, water ways, or county lines. Residents are encouraged to know their community designation and zone number.

## Evacuation Terminology

### Evacuation Order:

An Evacuation Order is issued where there is an immediate threat to life in a defined area. All non-essential persons are ordered to **immediately** leave the area

### Evacuation Warning:

Alerts people to a potential threat to life and/or property. Residents in an Evacuation Warning Area should **prepare to evacuate** and should be ready to immediately leave if their area changes to an Evacuation Order Area.
