

APPRAISER / APPRAISER, SENIOR

DEFINITION

To appraise commercial, industrial, rural, residential and personal property in determining value for property tax purposes.

DISTINGUISHING CHARACTERISTICS

Appraiser is the entry level classification in the Appraiser series. This class is distinguished from the Senior Appraiser by the performance of the more routine tasks and duties assigned to positions within the series. Since this class is typically used as a training class, employees may have only limited or no directly related work experience.

Senior Appraiser is the full journey-level class within the series. Employees within this class are distinguished from the Appraiser by the performance of the full range of duties as assigned and the possession of state certification. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the entry level, or when filled from the outside, require prior appraisal experience.

SUPERVISION RECEIVED AND EXERCISED

Appraiser - Receives supervision from higher-level supervisory staff.

Senior Appraiser – Receives general supervision from higher-level supervisory staff; may exercise functional and technical supervision over lower-level staff.

EXAMPLES OF DUTIES -- Duties may include, but are not limited to, the following:

Schedules and conducts field investigations and appraisals; performs such activities as inspecting, measuring, plotting and classifying real and personal property and property improvements.

Determines fair market values for property; defines property boundaries.

Gathers information, conducts economic and cost studies, and analyzes data in the appraisal of real and personal property and real property improvements.

Calculates replacement costs, obsolescence, construction costs, resale value and other pertinent factors.

Collects, analyzes and tabulates data to determine the value of the sale or rental of real and personal property; updates property records based on computations.
