

**PUBLIC HEALTH NURSE/
PUBLIC HEALTH NURSE, SENIOR**

DEFINITION

To plan and implement public health nursing services to individual clients and the community at large through the provision of clinical services and counseling and through the promotion of community health and welfare; to develop, maintain and monitor various community health programs.

DISTINGUISHING CHARACTERISTICS

Public Health Nurse: This is the journey level class in the Public Health Nurse Series. Employees within this class are distinguished from the Senior Public Health Nurse by the performance of the less complex tasks and duties assigned to positions within the series and the level of supervision received.

Senior Public Health Nurse: This is the advanced journey level class within the Public Health Nurse Series. Positions at this level are distinguished from those at the journey level by the performance of the full range of duties assigned. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the journey level, or when filled from the outside, have prior experience.

SUPERVISION RECEIVED AND EXERCISED

Public Health Nurse: Receives general supervision from higher level management staff.

Senior Public Health Nurse: Receives general supervision from higher level management staff; provides supervision and/or leadership and coordination of activities of lower-level staff as assigned.
