Information/Discussion/Action Items: None

4A: Linda Johnson and Mida Sullivan from Health and Human Services Agency did a presentation on the AB 2060 Supervised Population Training Grant, which was awarded to North Central Counties Consortium, (NCCC), and would serve Colusa, Glenn, Sutter, and Yuba County. The term of the program would run from June 30, 2016, through November 30, 2017. The target population would be individuals who are under the supervision/jurisdiction of the county probation department, which included Mandatory Supervision and Post Release Community Supervision (PRCS). It would provide via the STEP Program, two weeks of employment training services, such as how to complete a resume.

The total enrollment granted to Glenn County to be supervised under this funding is five participants; in which it was agreed the referrals would be made by probation through Al Scott. These individuals would be able to receive services at the Willows or Orland office.

Please see attached hand out provided at the CCP meeting for your review. Should additional information be needed, you may contact Mida Sullivan at (530) 934-1478.

4B: Those departments, who brought information to share with the group regarding what data collection they would be gathering, did so. A hand out was provided by Probation that listed data points that the department would be working on gathering, which is what other counties across the state using. Brandon Thompson went on to mention that other counties have their data information pieces on line, and is broken down by different groups, such as the jail, and treatment. For those that may like to have that information, he could have Rick forward it to them so that they can start looking at seeing what things each department may want to measure, such as numbers of offenders they are serving, and what services they are providing. The goal would be by the end of the fiscal year to put the information together and do a presentation to the Board of Supervisors and the community. Mr. Thompson mentioned, for example, tracking literacy levels, where we can look at the numbers of those coming in who are literate, or if they are not, how many are literate when leaving. Amy Lindsey shared with the group what information she had received from AI on what services has been accessed by the 23 individuals screened by their office. She shared that 19 have used the mental health services, 17 participated in anger management services and only one of them had accessed the educational program, which was surprising to her, since Success One is offered twice a week.

Amy Lindsey would be meeting with Nancy Callahan of I.D.E.A. Consulting, regarding the data collection. She has also agreed to gather the data from all the departments, and put a proposal together as to what it may look like. Once completed, it will be sent to Probation to be distributed to the CCP members for review.

Kevin Harrigan asked when they should begin submitting their data. Brandon said he would like it by next meeting.

4C: Next CCP meeting was scheduled for October 25, 2016 at 09:00 a.m., in the Jail Conference Room.

Motion to adjourn the meeting was made by Jason Dahl, and seconded by Kevin Harrigan.

Meeting adjourned at 09:36 a.m.
