Emissions Reduced

Greenhouse Gases (GHG)

↓ **1,070 MTCO₂e***

Fine Particulate Matter (PM_{2.5})

↓ **13,100 lbs**

Nitrogen Oxides (NO_x)

↓ **225,000 lbs**

* Metric tons of carbon dioxide equivalent

Year	Total (\$)**
2017-2018	\$1,450,000
2018-2019	\$1,400,000
2019-2020	\$690,000

** Rounded values; includes project funding and project implementation costs.

FARMER Appropriation

Since 2017, the California Legislature has appropriated \$332 million statewide – with 65% of the funds benefiting disadvantaged and low-income communities. This signifies the state’s commitment to reduce agricultural sector emissions by providing grants to replace high-emitting agricultural equipment with cleaner equipment. The table to the left shows the Glenn County APCD’s allocation by fiscal year.

The FARMER Program is funded in part by California Climate Investments, a statewide program that puts billions of Cap-and-Trade dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment – particularly in disadvantaged communities. For more information, visit the California Climate Investments website at: caclimateinvestments.ca.gov.
